(By International News Service.)
CHICAGO, Jan. 28.—The first breath of a wave of exceptional severity is now sweeping this city from the northwest. It is accompanied by heavy snows which are playing serious havoc with traffic in the congested business districts. A storm drove every person to cover early this morning and the mercury now stands well below zero. Montana reports, in a dispatch received here, that the temperature in that region as 54 below zero. It is also stated that deep snows which are embarrassing railroad travel extends south as far as St. Paul.

**VOLUSIA CO. FAIR
DECIDED SUCCESS**
LARGE ATTENDANCE ON EAST COAST DAY TO SEE FINE EXHIBITS—SCHOOLS TAKING IN EDUCATIONAL DAY TODAY.
Yesterday being East Coast day at the Volusia county fair, the attendance from Daytona, Daytona Beach, Seabreeze and adjacent territory was unusually large, although many from this city and vicinity had been visiting the fair since the opening day, Tuesday. All the towns of the county on the East Coast were well represented yesterday.
All visitors to the fair pronounce it an exceedingly creditable exhibition throughout and some of the departments, notably the agricultural and poultry displays, and particularly the latter exhibit, being exceptionally fine. In regard to the poultry display, which is receiving favorable comment from all sides, Chief of Police T. O. Milton, who attended the fair yesterday in company with Mrs. Milton and others, declares it surpasses the poultry exhibit at the Panama-Pacific exposition.
Daytona has taken part in the fair in proper spirit and the entries from this city are numerous and excellent. Among the exhibits of business places are noted those of Joseph Scher, who has a beautiful display of women's wearing apparel; C. Nash and Son, fine display of the products of their sheet metal works; East Coast Preserving company, an attractive display of R. L. Pappy's art in jelly-making and fruit preserving; International Sanitary Cesspool display; J. Ginsberg, hat display; Singer Sewing Machine exhibit by the Daytona agency, and Schulze & Obermair, floral display. The Elks' automobile is also on exhibition at the fair.
The agricultural display is exceptionally fine and well demonstrates what Volusia county is capable of producing in the way of fruits and vegetables.
The Daytona public schools have an excellent exhibit and the Daytona Industrial School for Negro Girls also has a very creditable display. The exhibits mentioned are only a portion of those from Daytona and vicinity and the displays from the East Coast section of the county form a large part of the exhibits at the fair.
Today is educational day at the fair and the schools of this city and the peninsula towns are well represented, the schools having been closed for the day to permit of the attendance of the faculties and children.
The fair will close tomorrow and all who have not visited it and can still arrange to do so should take advantage of the last opportunity and see the fair tomorrow, as it is well worth the journey.
REGULAR MEETING OF ELKS THIS EVENING

CROOKS ROB AND FIRE JACKSONVILLE DEPOT; BAGGAGE ROOM GUTTED

(By International News Service.)
JACKSONVILLE, Jan. 28.—One of the most daring outrages ever committed in the state of Florida took place here early this morning when thieves rifled the Union Terminal depot and set fire to the immense baggage room containing thousands of dollars worth of trunks and luggage. The flames completely gutted that portion of the building which represented an entire wing of the station structure, doing unestimable property damage and consuming the entire mass of baggage stored there. It was only through the prompt action of the fire department that the depot was saved from utter destruction.
A tremendous mass of trunks and crates among which was vast quantities of baggage belonging to northern tourists on their way South, lay stored in the baggage room. Not a single article was saved. It is impossible to estimate the actual loss to the railroad and its travelers, but the amount will figure high into the thousands of dollars.
The only clue secured by the authorities regarding the identity of the miscreants was furnished by Assistant Baggage Master McNeely, who was discovered bound and gagged on the platform of the station.
According to his story, two men attacked him from behind while he was counting the cash in his office, and overpowered him. He could not describe them further than to say that one was white and the other colored.

It need be pointed out with a view of encouragement that Daytona has no other city of similar size in this nation. It stands alone in the South as the only city of its size in Florida.

Only a day passes but the question is asked, "Where is the office of the Chamber of Commerce?" The answer is unhesitatingly to any business man in the city is the question is propounded. It calls for explanation that is convincing and convincing.

The City of Daytona suggests that a live chamber of commerce be organized. The Chamber of Commerce of the Nation has been told of the movement in this city. LET'S HAVE A CHAMBER OF COMMERCE
WORTHY OF THE NAME IN DAYTONA

It must be admitted with a blush of embarrassment that Daytona has no board of trade or other civic body of like nature. It should have one of the active civic bodies of any city in Florida.

Hardly a day passes but the question is asked, "Where is the office of board of trade?" The answer is embarrassing to any business man to the question is propounded. It calls for explanations that a stranger cannot comprehend.

The Daily News suggests that a live chamber of commerce be organized. The progressive element of the business men take hold of the movement. It means more to Daytona than anything else—far more than a union government or any other form of government. It means as much as sewerage or good roads; it means everything for the future welfare of the city.

The aggressive trade body can accomplish wonders for this locality; it can secure conventions, disseminate information to inquirers on questions that are unanswered; it can discuss and take action upon many matters of interest to the community.

The first thing to be done is to ORGANIZE; the next step is to have a secretary. LET'S DO IT.

Adherents of Col. C. M. Bingham, A. McF. Porter and Lew Smith, the leading candidates nominated in Tuesday's primary for city commission, should not forget that the election to finally decide the personnel of the commission will be held February 8. At that time there will be four names placed on the official ballot—the three mentioned and Geo. A. Main. It is generally conceded that Mr. Main mustered his entire strength in the 251 votes he received in Tuesday's primary. But the fable of the hare and the tortoise should be remembered. Every supporter of Bingham, Porter and Smith should be on hand February 8 to cast his ballot. Never fear but what the adherents of Main will all cast their votes.

PORT ORANGE

PORT ORANGE, Jan. 27.—Mr. Ben Northcott, of Walton, Ky., who has been here some 12 years and has made two trips here at that time, was in town Saturday and up old friends. He remarked that many improvements had been made since his last visit nine years ago. With his wife and young daughter he is stopping at New Smyrna. Mrs. Northcott has a sister living here. Some years ago Dr. Northcott and his hand with a saw and in consequence is able to use it but little. and Mrs. Swallow, from near N. Y., have rented the A.

M. Martin cottage near the Smith & Jackson store.

The Rev. Mr. Gray, pastor in charge, held morning and evening services at the Methodist church on Sunday last. Owing to there being a fifth Sunday in January, the next regular services will be February 14.

The "Willing Workers," a charitable organization that devote their efforts principally for the benefit of the Children's Home society of Florida, held the banner meeting since their organization on Wednesday last at Mrs. J. B. Case's.

On Tuesday last the "Good Time club" was very pleasantly entertained by Mrs. F. M. Townsley at her beautiful home on the river shore. Several friends beside the members of the club were present and enjoyed the

good things provided for their entertainment.

Leon Sparkman, Frank Zimmerman, G. Reisley and Mr. Cothron motored to DeLand, taking in the fair and returning via DeLeon Springs, on Tuesday.

Mr. and Mrs. I. J. Wells celebrated their golden wedding on Tuesday, the 25th. All of the four children that blessed their union were present, viz., Thomas J. E. Wells and Wm. E. Wells, of Jacksonville, Mrs. Carrie Summerlin and I. J. Wells, Jr., of this place. J. J. Vinzant and wife, of DeLand, the latter a sister of Mrs. Wells, and Mrs. Candacy Prevatt, of Jacksonville, these two ladies being the only living witnesses of the marriage ceremony performed half a century ago so soon after the close of the Civil War. F. O. Sparkman and family, life-long friends, were also present and the day was delightfully spent in reminiscences, social intercourse and enjoying the good things so liberally provided for the refreshment of the intellectual as well as the physical man. In the evening a company of the friends and neighbors of the happy pair gathered at their home and with music, song, recitation, congratulations and social intercourse, passed away a pleasant hour, and leaving with sincere wishes for the long life and continued happiness of Grandpa and Grandma Wells.

Mrs. Mead has given her house a new coat of paint that adds much to its appearance. Mr. Mead doing the work.

C. J. Vass has been engaged in running a tender from West Palm Beach to the dredges that are cutting canals in the Everglades.

Fine for the Midgets.

A theater manager in Hungary sells seats in accordance with the size of his patrons; the shorter being seated in the front rows and the taller behind them.

He Often Does to Other People.

When a girl smiles at a fellow it is no sign that he looks good to her. He may look funny to her.—Covington Republican.

Old Drinks in America.

Parsnip wine was made by British housewives before emigration to America set in, and the art of making this wine was brought over by the early immigrants. There was also in colonial time in America a drink which was called peppermint wine, or peppermint liqueur.

THANHAUSER FEATURE AT ARCADE TODAY

At the Arcade theatre for Friday will be shown "When Hungry Hamlet Fleed," a big Thanhauser feature in two acts and one hundred scenes, featuring the film stars, Lorraine Hurling, Harry Benham and Claude Cooper, and the Reliance Film company presents Ralph Lewis and Francelia Billington in "The Father," a beautiful drama of the better kind in two acts, and The American Film company presents Vivian Rich and Walter Spencer in "The Assayer of Lone Gap," a good western drama, full of love and adventure. For the full program, read the back page of the Daily News.

FORTY-EIGHT GUESTS OF DESPLAND ENJOYED CARDS

Forty-eight guests of the Despland hotel enjoyed cards at that hostelry last night. Auction bridge and 500 were the games participated in by the players of the 12 tables.

The ladies' prize in bridge was awarded to Mrs. E. O. Bellais, of New York, while the gentlemen's bridge prize in the game went to Geo. K. Baker, of New York.

In the 500 games, Mrs. Barnes, of Chicago, held the highest score among the ladies, and C. H. Turritt, of Toronto, Canada, was the winner of the gentlemen's prize.

Someone Else Had to Pay.

Hard to Keep Track Of.

Wise men say that there are no less than 1,000,000 different sorts of insects. It must be a wise bug that knows its own species.

Daily Thought.

I should never have made my success in life if I had not bestowed upon the least thing I have ever undertaken the same attention and care that I have bestowed upon the greatest.—Dickens.

What Baby Had Seen.

A new baby brother came to the home of little John. In his joy he brought in his pets to show the new arrival. He brought his cat and then his pet chicken, and then standing back he said in triumph, "Now the baby has seen three animals—the cat, the chicken and the stork."

MANY DON'T OBSERVE RULES IN SUBMITTING MOTTO SUGGESTIONS

The "Sentimental Editor" of the News continues to receive a batch of suggestions for a motto for Burgoyne casino by every mail. Here are some that arrived yesterday.

EUREKA! Fun, frolic, the light fantastic too.

EUREKA! the martial strains of music, too.

EUREKA! wafted afar like the zephyrs' hue.

EUREKA! the ethereal sky of eternal blue.

DAYTONA, nineteen sixteen on the beautiful Halifax,
Was erected for music this casino grand.

Our motto is a welcome to all—
God bless our country, flag and band.

"Music washes away from the soul the dust of everyday life."

Music, the breath and spirit of harmony.

It is the expression of the soul.

The hypnotizing influence that elevates all mankind.

The inspiration that leads to generous deeds.

Some locate Eden in the West;
Some in the Northland drear,
But they are altogether wrong
For Eden, it is here.

Our Hall—
It is devoted to rhythm and rhyme,
To music with all its magic divine,
Cheering the way for brothers of thine.

It was said by sages of old:
"When in doubt do nothing."
But a modern mentor would suggest
"When in doubt come to Florida."

Many contributors do not follow the rules laid down and it is respectfully suggested that they be read carefully before submitting contributions.

Rule 1. Communications shall be addressed to the "Sentimental Editor Daily News, Daytona, Fla."

Rule 2. No contestant will be allowed to have more than one trial.

Rule 3. Each communication submitted must have on it the sender's full name and address.

Rule 4. No communication bearing a postmark later than January 31, 1916, will not be considered.

Rule 5. Only actual residents of Volusia county or bona fide students in Volusia county schools are eligible to participate in the contest (the latter include pupils from abroad).

Rule 6. The winner of the prize must furnish his or her photograph for publication in the News.

Rule 7. No motto or legend containing more than four lines of seven words to the line will be considered.

Rule 8. In the event that two or more persons send in the same wording, the communication first received by the News will take precedence over the others. All communications will be numbered in the order of their receipt.

Rule 9. The "bids" will be inspected February 1, 1916, and passed upon by a committee of competent judges. The prize will be awarded in conformity with the decision of a majority of the judges. Following this, the winner will be notified, and requested to supply the paper with a photograph or portrait.

A tea will be given every afternoon at the Princess Isseena during the winter season for their guests and their friends.

Mr. and Mrs. N. J. Elswarth and Eugene Elswarth, of New York, arrived Wednesday and are registered at the Princess Isseena for the remainder of the winter season.

And More Absorbing.

Among the leading theoretical pursuits we should say that methods for prolonging human life are easily first.

Shows Value of Panama Canal.

From New York to Sydney by the Cape of Good Hope the distance is 13,395 miles. By the Suez canal it is 13,823 miles. By the Straits of Magellan, 12,159 miles, and by the Panama canal 9,814 miles.

She Knew What It Was.

The teacher, picking up an orange that was lying on the desk, explained that it was a unit. The next day the peellings had been left there, so, picking up a couple, she asked what they were. There was a pause. Presently a bright-faced but shy girl answered, "Why, that's the skin of a unit."—Little Chronicle.

What "Candle Power" Means.

When we say that a light is a certain candle power we are expressing a measure of brilliancy. Candle power is a definite term fixed by American law as the amount of light given by a candle burning 120 grains of wax per hour. Such candles come six to the pound.

SOLICITS FARES AND ANSWERS TO MAYOR

Lawrence Robey, a city hack driver, appeared in the mayor's court this morning at 9:00 o'clock to answer a charge made against him by H. R. Smith, traffic officer at the F. E. C. depot, for soliciting fares on the station platform.

Robey pleaded not guilty and told how some negro had come to him at his regular stand, saying that an arriving party wished a carriage at once at the depot. When Robey reached the platform he was arrested by Smith. This morning, however, he could not produce the negro alleged with carrying him the message.

Mayor Titus fined the driver \$10.00, which fine he suspended on the good conduct of the prisoner. He instructed Officer Smith to report any further misdemeanors along the same line and make arrests if necessary.

It is understood that the law regarding hack drivers' privileges at the Florida East Coast depot will be rigidly enforced.

The Supreme Test.

If a great captain of industry should resolve to lead a better life and never again to utter an untruth we imagine the supreme test would come when someone timidly asked him if it wasn't possible that the trouble with his business was partially due to the fact that his company was over-capitalized.—Columbus (O.) Journal.

NO CONGRATULATIONS FROM KING TO KAISER

MUCH INTEREST MANIFEST IN LONDON, HOWEVER, OVER CON-
FERENCE IN BERLIN YESTER-
DAY—OTHER EVENTS.

LONDON, Jan. 28.—As was to be supposed, the kaiser's birthday was completely ignored in Great Britain, although in peace times the warmest congratulations were always exchanged between the king of England and the emperor of Germany. Great interest is manifested here, however, in the council that was held in Berlin yesterday. The censorship is so strict that it is, of course, impossible to gain any information that is even remotely reliable, but it is this very uncertainty that makes the next move of the Teutonic allies interesting.

Gen. Gallieni, the war lord of Paris, is shutting down the lid tighter and tighter on graft. His latest decree prohibits officers of the army from filling both a military and a civil function. The order is a side issue of the Dalbiez law, which decrees that every Frenchman should be serving his country in the way that he is best fitted, but it has brought confusion among the directors of three of the state subventioned theaters. Thus, Theopis, like Mars, is mobilized in Paris.

Optimistic Thought.

LITERATURE DAY OF THE PALMETTO CLUB

THE PHILIPPINES IN SONG AND STORY PLEASANT FEATURE OF ENTERTAINMENT FOR THE AFTERNOON.

Thursday afternoon was Literature day at the Palmetto clubhouse, and "Philippine" in song and story, was the subject of the entertainment.

There were a goodly number of the members and friends present to enjoy the efforts of the club ladies.

The clubhouse was decorated for the occasion with American flags. The stage was a bower of beauty, banked high with green. The ladies in charge sat upon the stage in the costumes of the native Filipinos, which were most gaily hued, some with lace mantillas, but all with coquettish fans, and the ever-present beads, of every shade and style. All of the ladies pursued the native customs of the Filipinos; some were busily engaged in weaving

rugs and hats, some embroidering, others card playing and smoking.

Mrs. Murray L. Stanley, the president, opened the meeting with a few well chosen remarks, and announcements. The first number on the program was a very soft, entrancing waltz, "Papa y Chating," played by the Palmetto orchestra, and this number was very well received. Mrs. Charles E. Gardiner, chairman of the literary department, read a very concise and most interesting letter from a friend in the Philippines, which prepared the hearers for the topic.

The romantic and lovely song, "In Old Madrid," was then sung in duet by Mrs. Bohannon and Miss Browne. The harmony was delightful.

Miss Susan P. Gladwin, A. B., Rollins college, then read a fine paper on her personal reminiscences of life in the Philippines. It was most interesting, Miss Gladwin carrying her listeners through the many experiences which she underwent there in a very charming way.

Miss Browne then rendered a Spanish love song, "Nita Gitana," which was wonderfully sweet.

Mrs. Graham Thompson then gave a short synopsis of LeRoy's famous

book, "Philippine Life," bringing out in her delightful way, in a voice very clear and well modulated, the customs, traditions, habits and the life in general, of the Filipino.

Miss Edith Newell gave a few spontaneous remarks on her experiences while a traveller in the Philippines. The program then closed with a very pretty serenade by the Palmetto orchestra, Yradier's "La Paloma."

Mrs. Otis was piano accompanist. Mrs. Arthur H. Carter and Mrs. Jas. H. Niver were the hostesses.

Good Surmise.

A woman's magazine says the diamond is losing its popularity for engagement rings. We don't know what the substitute is, but we'll bet it's nothing cheaper.—Detroit Free Press.

Roundness of Earth Long Known.

The fact that the earth is round was not an original conception of Columbus. The approximate circumference was calculated in Alexandria early in the Christian era. Seven hundred years afterward practically the same result was arrived at by the Moorish geometers in Spain, where they taught geography from a globe.

PALMETTO CLUB NOTES.

A card party will be given at the Palmetto clubhouse on Tuesday afternoon, February 1, at 2:00 p. m., for the club members and friends, the proceeds of which will be devoted to the building fund.

Friday morning, February 4, will be musical morning at the clubhouse. Nevin's compositions will be taken up, under the leadership of Miss Clark. Mrs. W. E. Hitchcock, chairman of the music committee, will have charge, assisted by Mrs. M. P. Cornwall and Miss Armeta Peirson.

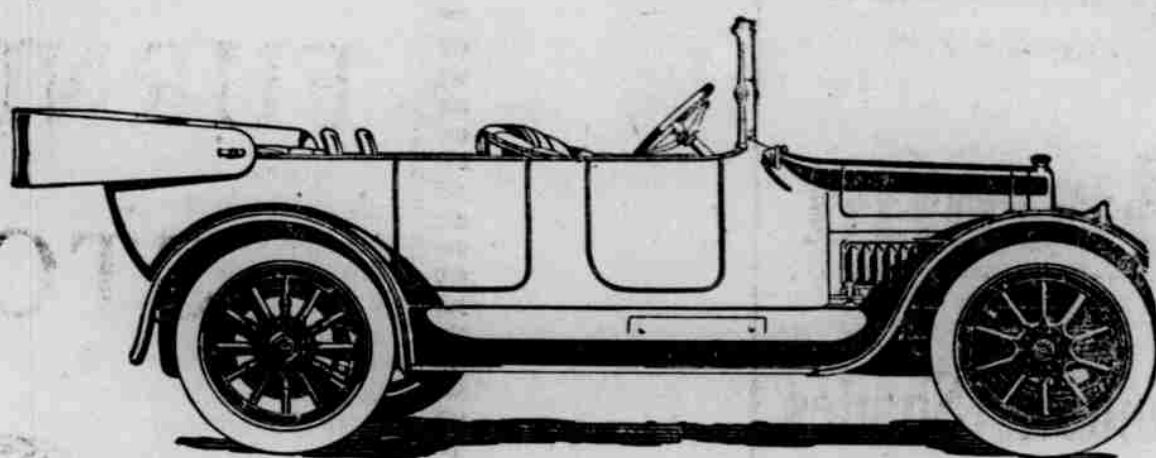

Protected Against Rogues.

It is difficult in Germany for a professional rogue to enter a family as a domestic servant. There every servant has a character book, in which the mistress must enter the dates of the coming and leaving of the servant, with her character while in service. This the girl is obliged to take to the nearest police station and have it dated with the official stamp.

WEATHER

A weather man announces local tonight or Saturday for this section a wire received here this morning. He says he has been off on a party for the last day or two and that is why he has not had time to manufacture that storm he promised to be hoped that he will return to Daytona, where he must share the weather he doles out because, as it may seem, the weather himself doesn't like rain.

As for those umbrellas, mail insurance policies and rowboats, yesterday at the suggestion of the News: Just put them away in your closets and keep them for a rainy day. It's always nice to have something saved up for a rainy day. Never can tell when you're going to need it. Some Daytona residents wake up tomorrow and look out the window only to find several enderling yachts anchored on the lawn. That is what the weather predicts. Now let's see! The winds are scheduled to continue to blow moderately from the east and southeast.

Origin of the Japanese.
It is impossible to be precise on the subject of the origin of the Japanese. They may have come originally from China or Malaysia, or from a dozen other regions. It is certain that they are an amalgamation of many races, but beyond this all is guesswork.

ST. AUGUSTINE MAN ASKS PAY FOR USE OF BOAT

The Cocoa News-Star prints the following story relative to cancellation of a contract for the charter of the houseboat Ruffhouse:

"E. Mapes, millionaire secretary of the Cream of Wheat company, of Minneapolis, chartered Captain Allen's boat, Ruffhouse, for a cruise of three months from St. Augustine south, and thereby hangs a tale.

"The Ruffhouse reached Cocoa Sunday evening with Mr. Mapes and his family, consisting of his wife and son and three guests. It seems that some differences had arisen between Mapes and the owners of the boat, and he decided to leave it here. The contract price was \$6,000 for the entire cruise of three months, and, of course, the captain, F. S. Allen, could not see things that way. Mr. Mapes and party went North on the railroad Tuesday and Captain Allen promptly entered suit against him, retaining G. C. Edwards, of Cocoa, and E. Noble Calhoun, of St. Augustine, as his attorneys. Notice was served on Mr. Mapes on the train at Titusville Tuesday and the outcome of the case will be watched with interest.

The party had been out 17 days but could not agree on a settlement under the contract, so Mr. Mapes will have to take his chances with a jury.

He hopes to spend the entire season here next winter.

COM. BURGOWNE JOINS ORIENTAL COMMAND'RY

MEMBER OF MASONIC FRATERNITY FOR MANY YEARS, COM. C. G. BURGOWNE NOW TAKES KNIGHTS TEMPLAR DEGREES.

At the regular convocation of Oriental Commandery, No. 9, Knights Templar, at Masonic hall, on Orange avenue, Thursday afternoon and evening, two candidates were initiated into the mysteries of the order, one, H. A. Isenbach, a resident of Dupont, and the other, Daytona's leading citizen, Commodore C. G. Burgoyne, who has been a member of the Masonic fraternity for many years but up to yesterday had not taken the Knight Templar degrees.

The afternoon session of the commandery, beginning at 4:00 o'clock, was followed by the usual recess at 6:00 p. m., for the enjoyment of supper, served in the banquet hall and after this fortification for the evening's work the initiation ceremonies were resumed.

The meeting was well attended, quite a number of visitors being present, and at its conclusion a pleasant social session was enjoyed, during which several interesting addresses were made by the visitors and members of the commandery.

AN EVENING OF CARDS AT THE RIDGEWOOD HOTEL

A pleasant evening at cards was enjoyed by the guests at the Ridgewood hotel Thursday evening, 12 tables being very busily engaged during the contest of auction bridge and five hundred.

Mrs. Henry Leland Bowles, of Springfield, Mass., won the first prize in auction and Mrs. G. A. Weadock, of New York, the second.

In five hundred Miss Decker, of Johnstown, N. Y., had the highest score, and was awarded the first prize. Dr. L. N. Wiley, of Enfield, Conn., was consoled with the second prize.

This party was the first of a series which will be given at the hotel during the winter season, Miss Ella Hughes, the hostess, taking charge.

MADE FINE CATCH OF FISH NEAR WILBUR

W. R. Rorick, one of the popular guests of the New Gables, in company with C. E. Rowland made a very successful catch of fish in the vicinity of Wilbur, Thursday. In a very short space of time they landed 18 trout, 10 bass and six sheepshead and some of them were the finest specimens seen in a long time.

Mr. Rorick, who is a large cattle dealer of Buffalo, N. Y., is accompanied by Mrs. Rorick and they are visiting Daytona for the first time and are among the most enthusiastic visitors who ever came to Daytona. They are so delighted with their pleasant surroundings that they will make a longer stay than they had originally planned.

PARENT-TEACHERS EVENING MEETING

INTERESTING ADDRESSES MADE ON SCHOOL MATTERS BY MRS. HENRY MITCHELL AND JUDGE G. W. WARD.

The Parent-Teachers' association met Thursday evening in the school auditorium. Mrs. Jerome D. Maley presided. General business matters were transacted, and several topics of interest to the association brought up. Among them the discussion of whether the playgrounds be used by the children on Sunday. There were some remarks in favor, and some in disfavor. Dr. Henry Mitchell's point, that there would be no supervision of play on Sunday, carried, and it was decided that Sunday play be set aside. A plea for reference books for the lower grades was made, and all who have any such are urged to donate them to the school.

Mrs. Henry Mitchell gave a most pleasing story from the St. Nicholas. Victrola selections were then enjoyed.

Judge Ward, of Dolgeville, N. Y., spoke on the Gary school system of educational training, advising the use of this system of fewer school buildings and longer school terms. The judge, who has made this subject almost a life work, sees the advisability of higher salaried teachers and longer school terms.

When You Have Married a Wife.

BURGOYNE CASINO NEARING COMPLETION

WORK BEING PUSHED RAPIDLY
ON BIG BUILDING BY CONTRACTOR ESPEDAHL — ELECTRIC CLOCK SENT FOR.

The Burgoyne band casino is being pushed rapidly toward completion by Contractor Jacob Espedahl, who is using every effort to have the building finished in time for the Elks' charity ball on February 7.

The flooring of the big building was completed yesterday and the ceiling of the interior is well along toward completion and it is probable that the carpenters will be out of the building by Saturday.

The exterior work is also well along toward the finish. The battlements on the towers are all done and add an air of distinction to the building. The work of shingling the sides of the towers, where not already done, is progressing rapidly and the painters are following closely behind the carpenters.

Commodore Burgoyne stated yesterday afternoon that the electric clock had been telegraphed for the preceding day and he hoped to have it here and installed for the opening of the casino. The clock will occupy the space above the main entrance, between the two central towers.

Now that the casino is so nearly finished the question of the furnishings becomes more urgent.

ings becomes more urgent. The fund has been growing steadily, it is true, but twice the amount now subscribed could readily be made use of in supplying the chairs and other furnishings and no better time will be found than the present to make donations to the fund. As previously stated, Commodore Burgoyne could just as easily furnish as build the casino, but he is offering the residents and visitors of Daytona an opportunity to join in his generous gift to the city to whatever extent they are able or inclined and the lesser amounts from people of small means are just as welcome as the larger donations from wealthier people.

STEAM TUGS TO DRAG WHITNEY'S CAPTIVA FROM GILBERT'S BAR

It is understood from reliable sources that Harry Payne Whitney, owner of the Captiva, which is lying hard and fast aground on Gilbert's bar at the mouth of the St. Lucie river, has sent a wireless dispatch to Jacksonville asking for the immediate assistance of several steam tugs.

The magnificent yacht has not shifted her position on the bank except to settle further into the sand. There is not much over a foot of water around her hull at low tide and the highest tide since she struck failed by more than one and one-half feet to float her.

The crew have exhausted their efforts to kedge her with anchors into the channel and her propeller has proven unable to dig her out. Should the tugs which are understood to be on the way to her assistance fail, it will be necessary to hoist out her engines to lighten her, as she carries no movable ballast.

The yacht is comparatively new—completed last year—and is noted far and wide as one of the handsomest cruisers afloat. She is nearly 150 feet over all and driven by internal combustion motors. She is the largest gas-power yacht in the world. Her suites of staterooms rival a palace in appointments and beauty. Her cabins and saloons are decorated with rare carvings and bits of art snatched from every quarter of the globe. Should she go to pieces on the bank where she now lies, marine circles throughout the land would mourn her loss.

MILITIA OFFICERS CONDEMN DANIELS

WASHINGTON, Jan. 28.—The Naval Militia association met in annual convention here today, the attendance being unusually large. Importance attaches to the meeting because of the known antagonism to Secretary of the Navy Daniels and his policy of imposing silence upon naval officers. While there are few who think it policy to come out in open criticism of the secretary, his administration is strongly condemned in several quarters.

And He Did.
"Save me!" murmured the fair damsel, as she fell into the arms of her ardent admirer. Being an economical man, he did so.

NEITHER FORD NOR COW MUCH HURT BY COLLISION

While making an automobile trip to Palatka Wednesday of this week, J. Fitch Walker, of this city, and Chas. F. Wetherell and son, Carl Wetherell, of Holly Hill, came upon a Ford car that had just met with an accident on the road between Crescent City and Palatka. The Ford had struck a cow and turned completely over. The driver of the car was the only occupant and he crawled out from beneath the machine after stopping the engine as the wheels were spinning around merrily with the car lying on its back. The Ford was righted with assistance and proceeded on its way, with no worse damage than the breaking of the windshield and one bolt. The cow also escaped with little or no injury.

CARMEN PRESENTED AT CRYSTAL TODAY

"Carmen," a William Fox production
supreme, will appear at the Crystal
today.

A scintillant gem of fiction. An
opera of universal appeal and undy-
ing popularity. A stage success of un-
equalled dramatic power. Everyone
is familiar with "Carmen," in one or
other of these forms. Now William
Fox gives to the world a new version
of this fascinating classic. Backed by
the vast resources of his superb or-
ganization, and assisted by the best
directorial and histrionic talent obtain-
able, he has made the screen produc-
tion of "Carmen" a masterpiece in
every sense of the word.

To Miss Theda Bara, star of the
Theatre Antoine, Paris, falls the hon-
or of creating for the moving picture
public the role of the volatile Span-
ish heroine, and under the direction
of R. A. Walsh, the noted producer,
she has far surpassed her previous
screen success. The story of the play
is so well known as to require only
the barest outline.

Carmen, the beautiful Spanish gyp-
sy, spirit of coquetry incarnate, lives
but to conquer the hearts of men.
Don Jose, a young officer of the Span-
ish army, falls a victim of her danger-
ous fascinations. At her behest he
forsakes his duty, and at last, driven
by insane jealousy, he commits a
murder for her sake. He flees from
justice and take refuge with a band
of outlaws in the mountains. Having
accomplished his ruin, the heartless
Carmen turns to fresh conquests. The
handsome Lucas, foremost Toreador
of Spain, takes her fancy, and she sets
about his subjugation. She has reck-
oned without Jose, however. Instead
of taking his dismissal calmly, the dis-
graced officer lies in wait for his false
love and in a manner typically Span-
ish, wreaks terrible vengeance.

Many Names for Ladybird.

Other names for the ladybird, in
various parts of England, are the fly-
golding, Bishop Barnaby and God Al-
mighty's cow.

What's Your Guess?

"A Minnesota man hatched a brood
of chickens by placing the eggs on a
hot water bottle and covering them
with a feather duster." Now the
question arises, which is the mother
of the chicks, the hot water bottle or
the feather duster?—Toledo Blade.

"BUNCH" OF PENN. ELKS MAY VISIT IN DAYTONA IN FEB'Y

The Allentown, Pa., lodge of Elks
will invade Jacksonville February 21,
for a half day, according to an an-
nouncement made by the Clyde line
passenger agent, Herman G. Wenzel.
He also stated that the party of 60
would travel south on one of the com-
pany's ships.

The Elks will journey up the St.
Johns river and then travel leisurely
down the East Coast. George F.
Crouch, exalted ruler of the Daytona
lodge, has written telling them that
if they will stop in the "prettiest win-
ter resort in the world" that they are
sure to have a heleva time.

According to Mr. Wenzel, the party
is to leave New York on the steam-
ship Mohawk on February 18, arriv-
ing in Jacksonville the following Mon-
day morning. That afternoon they will
depart for Sanford on the river steam-
er Osceola and return the next day
for the East Coast trip. The itine-
rary shows that they are to proceed
over the Florida East Coast railway
direct to Miami and then back up the
coast to Palm Beach and St. Augus-
tine. They will leave Jacksonville on
February 25 on the steamship Arapa-
hoe for the North.

The trip is to be made as a sort
of annual outing for the Allentown
Elks and it is probable that the Jack-
sonville members will have a recep-
tion committee at the dock to meet
and show them about the city when
they reach that city on the down trip.
The party will include some of the
most prominent men in Allentown.

If you read it in the Daily News it
is pretty apt to be just that way.

Scientist's Bacterized Fertilizer Shows Remarkable Results in Plant Growing.

In speaking before the society on his experiments with the use of bacterized peat as a fertilizer, Professor Bottomley said that, shortly before the outbreak of the war, a German called on him and asked him for a sample of bacteria. The second time he called the professor learned that the sample for the board of agriculture, who were to make experiments. He refused to give the secret.

Professor Bottomley said that radishes were sown in sand, watered with the extract of the bacterized peat. The result was that the radishes were of a size and shape that would not be possible with none of the liquid there. There have been no radishes at all. The plants were sown in the peat, and the plants are growing, whereas those on which the fertilizer was used stopped growing the first week in September. The plants were grown in nothing but the peat, and the plants produced 16 pounds of radishes.

Professor suggested that the use of land lying idle in London be used for the production of radishes by the aid of the new fertilizer.

LAD REFUSES TO SQUEAL

Runs Away From Home Rather Than Give Information About Schoolmates.

Ind.—Samuel Hobbs, the five-year-old son of Mr. and Mrs. Hobbs of Salem, has been missing since November 3. The boy disappeared from home, and no trace of him was found until a schoolmate returned and said he had gone to Louisville with him.

The schoolmate said the runaway boy had to go to Memphis, Tenn. The boy then went to Louisville and began searching for the boy. The police are searching all through the city for the lad.

The school authorities have been making investigations of cigarette smoking among the young boys in the school, and rather than tell on their classmates young Hobbs decided to run away. The boy was a student in the fifth grade.

Foodstuffs and Their Worth.
Beefsteak and some vegetables are rich in iron. In meat the iron exists largely as hemoglobin, due to the blood contained in the muscular tissues. Iron in combination with protein matter is found in considerable quantity in grains. String beans, navy beans, lima beans, spinach especially, cabbage and dried peas are rich in iron. Among the fruits that have plenty of iron are dried prunes, apples and raisins.

500 SOULS ABOARD BIG LINER THOUGHT SUNK

(By International News Service.)

LONDON, Jan. 28.—A report, circulated throughout this city, rumors that the big Elder-Dempster liner, Appan, with 500 souls aboard, bound from Dakar to England, has been sunk. She is now five days over due and her agents admit having heard nothing from her. Her route of travel lies between West Africa and Plymouth. No further particulars could be secured.

She is believed to have been sunk by a torpedo or floating mine, probably before her wireless calls for help could be picked up.

THOUSANDS HOMELESS IN FLOODED ARKANSAS

(By International News Service.)

MEMPHIS, Jan. 28.—Thousands of families in Desha and the adjoining counties in the state of Arkansas are today being rescued from the tree tops as a result of the tremendous floods from the White and Arkansas rivers which have been overflowing their banks for some weeks.

A sudden drop in the temperature due to the approach of the northwest storm which is now sweeping over Chicago, has added much to the suffering of the homeless. The present flood is believed to be the largest and most disastrous in the history of the region. Train service in several districts has been entirely abandoned and the flood victims are finding it difficult to get enough to eat.

BANK ROBBERS CAUGHT WITH \$15,000 LOOT IN CHICAGO POLICE RAID

(By International News Service.)

CHICAGO, Jan. 28.—The police department of this city today announced the arrest of all five of the youthful bandits who robbed the Washington Park National bank yesterday morning a few minutes after it opened its doors for business.

The most remarkable feature of the affair is the fact that nearly all the currency stolen which amounted to \$15,600 has also been recovered in a carefully planned raid on a house on Southwestern avenue. Detectives arrested eight men and four women after discovering large sums of money on their persons.

The residence was owned by Joseph Friedman and his wife who, heretofore, were thought to be respectable by the police. When the officers rushed in the door they ran into a nest of crooks which had been carrying on extensive operations for some time in Chicago. Among those held for preliminary hearings were Eddie Mack, a youthful pick-pocket of black reputation, William Fein and Albrodie.

EMPEROR FRANCIS IS SLIGHTLY BETTER; REGAINS USE OF SPEECH

ROME, Jan. 28.—The Austrian emperor is reported as slightly improved today. He has regained the power of speech and leading physicians in attendance think his chances for recovery are about even.

The Austrian troops have captured the Albanian town of Alessio and are nearing Durazzo. High officials admit frankly that the fall of the latter is imminent and the Albanian forces have already withdrawn from the city proper to make a last stand outside the walls.
